Vassilios Roussis is a Professor at the Section of Pharmacognosy and Chemistry of Natural Products, Department of Pharmacy, National and Kapodistrian University of Athens and is currently the Director of the Laboratory “Valorization of Bioactive Natural Products”.

His specialization is in Marine Pharmacognosy and marine natural products chemistry. He is the author of more than 200 publications and 5 patents. He is actively involved in the chemical investigation of marine organisms from the East Mediterranean Sea, has isolated more than 350 new marine natural products and his research has been funded by several national and European grants. In 2015 he received the PSE – Bruker Award “in recognition of his outstanding contributions to chemistry, structure and function of marine natural products”. He is the editor for Marine Natural Products in 3 international scientific journals. He has served for 4 years as the vice-President and for 2 years as the President of the Phytochemical Society of Europe. He has organized 14 international conferences in Greece.
