Ioannis Mourtzinios is an Assistant Professor in Food Chemistry and Analysis in the Dept. of Food Science and Technology, Faculty of Agriculture, Aristotle University of Thessaloniki. He received his Bachelor in Chemistry (2001) and M.Sc. in Food Chemistry and Technology (2003) from the same University and his Ph.D. (2007) from Harokopio University. He participated in courses in Ghent University (Belgium) and Corvinus University (Hungary) on issues related with food safety and health. He worked in the R&D department of PEPSICO (2008-2009), in the R&D department of Chr. Hansen and also in the R&D and QA/QC departments of APIVITA (2010-2014). His research interests include the extraction and characterization of plants' bioactive ingredients, encapsulation of nutraceutical compounds and incorporation of nutraceuticals in foods using techniques such as High-Performance Liquid Chromatography (HPLC), Gas chromatography (GC-MS, GC-FID), NMR spectroscopy (^1H , ^{13}C - NMR), and UV-Vis Spectroscopy. He is the author/co-author of 37 peer-reviewed publications (SCI journals) and 17 contributions to international conferences and over 1070 citations (h-factor 15). He participated in 10 European and international research projects and he has 3 patents.
